ANNUAL REPORT

1945.

The Governors beg to submit the 85th Annual Report of the District Infirmary.

The restrictions due to conditions brought about by the World War again render it impossible to give as fully detailed a report as the Governors would desire to place before the subscribers.

The Chairman, the Deputy Chairman, and the General Superintendent have attended meetings of the Regional Council of the British Hospitals Association on several occasions, and are keeping in touch with the developments of hospital policy. Mr. Clegg and the Assistant Secretary have represented the Infirmary at various meetings in connection with the Contributory Scheme movement.

Despite all handicaps—and they have been many—a large amount of vitally important work has been carried out in the wards and special departments, and the staff have given whole-hearted service, resulting in many letters bearing testimony to their skill and patience and other evidences of deep gratitude.

The following figures summarise the work carried out, viz:—

IN-PATIENTS.

	1945.	1944.
Number of beds available for use (normally 200)	150 (average)	150

FINANCES.

The accounts, duly audited and certified as correct, will be found later on in this Report. The receipts on General Purposes Account at £50,553 exceed the payments by £5,290. Some items which will not recur are responsible for this unusual state of affairs, so that there should be no slackening of efforts to raise money for upkeep during the year now beginning. The accumulated deficit is still almost £20,000 and the Governors will direct their efforts to further reduction of so heavy a burden of indebtedness.

The Governors respectfully suggest that in view of the difference in money values brought about by the War, many firms could well afford to increase their annual contributions. They are gratified by the response made to an appeal for new annual subscribers to replace the many good friends who have died during the last two years, but still further help is required.

The Governors record with gratitude the receipt of the following legacies and benefactions, viz.:—

(d) THE THOMAS OLDHAM BEQUEST—

This Estate is still in process of being wound up by the Executors of Mr. Oldham in the United States of America. The total receipts since 1939 have been £29,791, of which £99 has accrued in 1945 by way of interest.

Under the heading "Donations, Free Legacies, etc.," it will be noticed that there is an increase in receipts as compared with 1944.

Sincere thanks are accorded to the Mayors and Mayoresses of Ashton, Mossley, Dukinfield, Stalybridge and Hyde for their efforts during the past year, and to all the various agencies, societies and individuals who have so willingly given valuable financial help. The outstanding efforts of the Ashton Operatic Society (£1,051), the Ashton Civil Defence Wardens (£1,100), the Bowling Clubs, Mr. Vincent Hartley's Party (£505), and many other special functions prove beyond doubt that the Infirmary is appreciated. Details of these donations appear later on in this Report.

LADIES' EFFORTS.

We are very grateful to the Ladies' Work Society, which has again had a successful year, and has raised the sum of £246 14s. 11d. A detailed statement will be found later in this report. We also thank the ladies who have knitted garments for the patients of the Infirmary from wool purchased out of this Fund. The "Bring and Buy" Sale, which was held at the Infirmary during the year, brought in the sum of £91. A number of Electric Clocks for the various Wards and Departments have been purchased out of this Fund.

Our thanks are tendered also to the ladies who have for so many years given valuable time and service in attending the Ladies' Sewing Parties, which are held on two afternoons each week at the Infirmary. These ladies devote their time to making garments, etc., for the use of the patients.

CONTRIBUTORY SCHEME AND OTHER WORKPEOPLE'S COLLECTIONS.

The new rates of weekly contributions came into force in July, so that a full year's increase is not forthcoming. It is gratifying, however, to note that the workpeople have given loyal support to the revised scheme. Out of the gross receipts of £22,239 the large sum of £5,410 was paid to other Contributory Schemes for treatment of our members in hospitals throughout the country. We received, on the other hand, £3,830 for treating members of outside schemes in the District Infirmary. This reciprocity is one of the strongest features of the movement and saves a vast amount of worry and anxiety to those who have to seek hospital treatment, often when far away from home and friends. The final net balance shewn in General Purposes Account is £15,243, an increase on the previous year of £3,635, for which the Governors are truly grateful.

In the collection of the weekly contributions the Infirmary has again had the valued help of the district Workpeople's Committees, many voluntary collectors and the office staffs of works and factories, to all of whom congratulations on the success of their efforts and thanks for their self-denial are gratefully tendered.

THE NURSING AND TECHNICAL STAFF.

Like most other hospitals the District Infirmary has had the utmost difficulty in maintaining anything like a full nursing service. The nurses taken from us by Government Orders for work in war hospitals in the spring of 1944 were returned to us in the first month of 1945. Meanwhile, very few new recruits had been obtained and this factor—combined with the inevitable wastage due to nurses leaving for more senior posts, additional special experience, or for marriage, and the effect of the additional holiday periods resulting from the Rushcliffe Report—meant that we were unable to staff the vacant wards immediately. Even now, one of the wards for female patients is still unworkable—with consequent hardship to persons waiting for beds. The state of the "waiting list" is deplorable and constantly in excess of 500. But until a larger staff of nurses and domestic workers is forthcoming the difficulties will continue. The gratitude of the Governors is due to the Matron (Miss Marshall) and her staff for their splendid work during the year. The Matron, in collaboration with the Medical Board under the able chairmanship of Mr. J. V. Fiddian, made strenuous efforts to increase the staff and bring to the notice of parents of suitable girls the advantages of a nursing career.

Miss Nettleton, Assistant Matron, left us on being appointed Matron of Bishops Stortford Hospital, and her place has been taken by Miss Elsie Cook, who for some time had been Home Sister. The Nurses' Prize Day and Reunion was held in July, when Lady Jowitt very graciously presented the prizes and certificates to successful nurses in the hospital and State examinations.

OBITUARY.

It is the sad duty of the Governors to report several deaths among the members of the Board. Miss Constance Lawton, J.P., who represented the workpeople of Mossley, died suddenly early in the year, and mention was made of her work in the last report. Many of the older members of the Board will remember the services rendered as an Honorary Surgeon by Dr. J. R. S. Park, of Dukinfield, between 1899 and 1918. He died at an advanced age in February. In July we had to mourn the loss of Mr. Alfred Ernest Bell, J.P., of Mossley, who for a dozen years had actively participated in the work of the Board and had for some years been a Trustee. Later in the year County Alderman Joseph Cooke, O.B.E., J.P., died after a long career of public service. He had been a Governor of the Infirmary for thirty-two years and ten years ago was made a Vice-President. Mr. Thomas Frederick Kershaw, a Governor since 1920, and a Vice-President and Trustee for several years, passed away in December at a ripe old age. His father, before him, was a Governor of long standing. Mr. Howard Duncan, L.D.S., Assistant Honorary Dental Surgeon, died very suddenly in January, much to the regret of his colleagues and the Board. They congratulate the Senior Honorary Dental Surgeon, Mr. Norman Wood, on his recovery from a serious breakdown.

MINISTRY OF HEALTH'S HOSPITAL SURVEY.

The Government Surveyors who inspected the hospitals of the country have published their reports and have made many criticisms of the existing hospital accommodation. The District Infirmary, it is recognised, is in some respects out of date, but the Surveyors make it clear that any adverse comments do not carry with them any reflection on the work done. In fact, there are very few hospitals in the North-Western Area which satisfied the Surveyors that they were in any real sense modern. They state that if a really efficient hospital service is to be provided to meet the requirements of the suggested State Service a vast amount of rebuilding and replanning will be essential. That there is an acute shortage of hospital provision seems to be generally agreed, and it is suggested that while hospitals should be modernised as far as is practicable, an entirely new

hospital should be provided somewhere on the east side of Manchester to serve both that part of the city and the hospital district adjacent, partly in Lancashire and partly in Cheshire. It remains to be seen what the forthcoming National Health Plan proposes before the Governors can take any steps to carry out the recommendations in the Survey, but it is clear that in any event money will be needed to carry on your Infirmary.

PLANT AND EQUIPMENT, &c.

It became necessary to replace two heating boilers during the year at a cost of almost £200. The steam disinfecter being worn out has been replaced at a cost of £350, and the fuel economisers to the steam boilers have been renewed at a cost of £235. More internal painting has been carried out, but there are many deferred repairs, replacements and decorations still demanding attention.

The Ashton-under-Lyne Workpeople's Committee have kindly provided some new accessories and have installed a refrigerator for the Children's Hospital.

ACKNOWLEDGMENTS.

Once again the Governors wish to thank all who have helped the Infirmary during the year. Gifts of money and of useful commodities, coupled with much self-denying service, have contributed greatly to the success which has attended the ministrations of doctors and nurses. The Stamford Park Committee throughout the year made gifts of vegetables which have been very acceptable. The Cheetham Park Committee also made several useful gifts. The Soroptomist Club, of Ashton-under-Lyne, contributed £100 as a first instalment of £1,000 they are aiming at for the endowment of a bed. The Ashton Branch of the Women's Voluntary Service administered on several days each week the Out-patient Canteen, and on Saturday afternoons ladies and gentlemen of the Ashton Workpeople's Committee continued this useful work. The Personal Service League and the British Red Cross Society and Order of St. John have made some very useful gifts. The Police and Ambulance authorities have again been of valuable help to the Staff. To those members of the Board and friends who made gifts to the Christmas dinners Fund or provided other amenities, hearty acknowledgments are tendered. Thanks are due to Mr. W. H. Andrew, J.P., for defraying the cost of certain printed matter. It is not possible to specify by name all who have rendered devoted service to the institution, but the Governors are deeply gratified by the encouragement received from all sections of the community.

Almoner's Report.

In this report it will perhaps seem appropriate to take stock not only of the past year's work, but also of the Almoner's Department since its inception early in the war. There have been many limitations to the development of a full social service for the patients, chiefly because much time was occupied with other work. But the foundations have been laid and more and more enquiries prove that patients have learned where to turn for help.

An example of such assistance is the case of a sailor given compassionate leave for his tubercular wife's confinement. The day before the baby was born he had to be admitted to the Infirmary, but wished to take his discharge against medical advice when he learnt that there was no one looking after his wife and baby and the three other children at home. When the facts were given to me I got in touch with the Welfare Officer and we arranged for a Home Help to look after the family during the day and a neighbour at night for a fortnight and to get assistance with the cost from the Royal Naval Benevolent Fund. The husband was very grateful for these arrangements and settled down in the meantime to complete his treatment satisfactorily.

In addition there were 5 patients who required artificial limbs and 11 patients sent for convalescent treatment. 22 people needed special assistance to obtain surgical and orthopædic appliances, and in 30 cases there was extensive help needed with domestic and economic difficulties including 4 adoptions arranged.

The future will see a slight change of emphasis on the type of problem, but there will be just as many which the Almoner could help to solve, and I hope that the Medical Staff will use the Department to the full. More convalescent homes are being reopened and more help is available to resettle patients in employment. I have been invited to serve on the Disablement Advisory Committee for the area and have attended meetings to help in securing the best conditions for disabled people to regain full employment.

The Annual Statement of the Honorary Medical Staff.

The Honorary Medical Staff is happy to be able to report that as the result of the end of the War, two members of the Honorary Staff—Mr. Brindle and Mr. Bleasdale—have returned to duty in their capacity as Honorary Assistant Surgeons. Their absence has been keenly felt by a depleted and overworked staff, and their return at this stage is most welcome.

It has been decided that the Medical Staff should be increased by the addition of two more Honorary Assistant Surgeons, and the advertisement for these two posts will appear in due course.

The prolonged absence through illness of Mr. Norman Wood, L.D.S., has left the District Infirmary without a Dental Surgeon, as no appointment had been made to fill the vacancy caused by the untimely death last year of Mr. Duncan. It was essential that such an important post should not long be left vacant, and it was decided to appoint Mrs. Hawley, L.D.S., as Temporary Honorary Assistant ~~Denton~~ ^{Dental} Surgeon, and this lady is now carrying out her duties.

As one of the means of solving the problem of the Staffing difficulties male medical orderlies have been appointed. At present only two have commenced duty, but it is hoped to increase this number as opportunity occurs. It is also intended to introduce female orderlies at an early date. So far the experiment seems to promise success.

Larger supplies of Penicillin are now being issued to the Infirmary, though the Ministry, quite rightly, still exercises some control over its distribution.

The Honorary Medical Staff reports with pleasure the continued high percentage of successes in the State Examinations of Nurses trained at the District Infirmary—both Final and Preliminary. A good deal of the credit for these gratifying results must go to the teaching staff of the hospital.

Great changes are forecast in the world of Medicine and the future of Hospitals—Voluntary or otherwise—is in the balance. Questions of re-organisation, staffing, extension, etc., must necessarily wait on Parliament's decisions. Discussion at present of some of the plans and suggestions which have been promulgated during the past four or five years would be inopportune.

The Honorary Medical Staff wishes to express, as in previous years, its deep appreciation of the devoted and loyal service carried out by the Nursing Staff under the direction of the Matron. Matron has been faced with many administrative difficulties, and the Nursing Staff—depleted in numbers—has worked doubly hard, sometimes under extreme pressure.
